Team Attributes

Name	Strengths	Weaknesses	Role	Availability
Daniel Routhier	<ul style="list-style-type: none">• System development• Team collaboration	<ul style="list-style-type: none">• Availability	Team Leader	M/W afternoon: T/Th morning
Carlos Cartagena	<ul style="list-style-type: none">• Leadership• Communication	<ul style="list-style-type: none">• Stubborn	Contributor	M/W/F/wknd: All day
Kevon Mahban	<ul style="list-style-type: none">• Team leadership• Tenacious	<ul style="list-style-type: none">• Pace of absorbing new skills	Design	T/Th: afternoon wknd: all day

Team Rules and Expectations

- All members will be present on at least Thursday's class time

- Effectively and timely communicate unforeseen circumstances (Example: texting about a car crash)
- Weekly goal productivity and completion (Example: everyone contributing and completing assignment on time)
- Resolve disagreements democratically

Consequences for Noncompliance

When any rules are broken, expectations unmet, or other behavior that harms the team exhibited, the team member(s) who committed the offense will be asked for a reason for the noncompliance. If behavior continues unexcused they will be warned, reminded of this document, and taken off the grade for the next assignment. If behavior continues after that, they will be removed from the group for an indefinite period.

While not encouraged, team members who are absent, yet provide acceptable workload towards our weekly goal, will not be penalized; However, if proficiency in their workload declines, .5 percent will be deducted from that member's course grade per assignment.

Code of Ethics

- Respect one another
- Show up to class and meetings on time
- Putting in effort and working to completion
- Meet weekly expectations

Team Bios

Daniel: I'm an Information Systems major interested in systems design and development. I strive to be a servant leader putting others needs first and maintaining quality work. I'm happily married and enjoy playing board games with my wife.

Kevon: A Senior in Information Systems, tenaciously studying security, moving towards a better future.

Carlos: I am a senior in information systems. I love Star Wars and video games. I always try to improve myself, either knowledge-wise or physically.

Signatures

I have read and agree to abide by the operating principles contained in this document.
